

**CORDLESS TOOL**

## CSD360

- Light weight and compact size allows for use in tight areas
- Ergonomic design with soft grip for increased maneuverability and less user fatigue
- LED light for better visibility in dark and enclosed areas
- Battery power indicator to show remaining battery level
- Forward and reverse selector switch for effective screw fastening / loosening
- Ready to use, 15pcs of accessories included

Battery: 3.6V, 1,300mAh Li-ion  
 No load speed: 180min<sup>-1</sup>  
 Max torque: 3.5Nm  
 Charging time: 3-5 hrs  
 Net weight: 340g

## CSD480

- Light weight and compact size allows for use in tight areas
- Ergonomic design with soft grip for increased maneuverability and less user fatigue
- LED light for better visibility in dark and enclosed areas
- Battery power indicator and full charge display on the charger
- Forward and reverse selector switch for effective screw fastening / loosening
- Magnetic bit holder provides increased ease and convenience for bit changes

Battery: 4.8V, Ni-Cd  
 No load speed: 180min<sup>-1</sup>  
 Max torque: 3Nm  
 Charging time: 3-5hrs  
 Net weight: 500g

## JCD1200

- 12V Ni-Cd battery technology provides lighter weight and more power
- Balanced mid-handle design with soft grip increases overall comfort and control
- 16+1 torque setting for precise driving applications
- Forward and reverse selector switch for effective screw fastening / loosening
- LED light for better visibility in dark and enclosed areas
- 3-5 hour fast charge for full battery
- Keyless chuck for quick and easy bit changes

Battery: 12V, 1,300mAh, Ni-Cd

No load speed: 0-550min<sup>-1</sup>

Torque setting: 16+1 positions

Charging time: 3-5 hrs

Max. chuck capacity: 10mm

Max. drilling capacity

in steel: 5mm

in wood: 15mm

Accessories: 1 x drill, 1 x battery, 1 x charger

Net weight: 1.2kg

Package: color box

## JCD1440 / JCD1800

- 14.4/18V Ni-Cd battery technology provides lighter weight and more power
- Balanced mid-handle design with soft grip increases overall comfort and control
- 16+1 torque setting with variable speed for various jobs
- Forward and reverse selector switch for effective screw fastening / loosening
- LED light for better visibility in dark and enclosed areas
- 3-5 hour fast charge for full battery
- Keyless chuck for quick and easy bit changes

Battery: 14.4V / 18V, 1,300mAh, Ni-Cd

No load speed: 0-550min<sup>-1</sup>

Torque setting: 16+1 positions

Charging time: 3-5 hrs

Max. chuck capacity: 10mm

Max. drilling capacity:

in steel: 5mm, in wood: 15mm

Accessories: 1 x drill, 1 x battery, 1 x charger

Net weight: 1.5/1.8kg

Package: color box

## JCD1800K

**Lithion**  
For better environment

- 18V Li-ion technology provides lighter weight and more power
- Balanced mid-handle design increases overall comfort, with fully adjustable side handle for better control
- Heavy duty motor and gear box for longer tool life
- 16+1 torque setting with variable speed plus powerful impact mode for various jobs
- LED light for better visibility in dark and enclosed areas
- 1 hour only fast charge for full battery
- Keyless chuck for quick and easy bit changes
- Screw driver bit holder for user convenience
- Rugged aluminum storage case with foam-rubber inserts keeps all in place
- Complete with 160pcs accessories required for most home and professional jobs

Battery: 18V, 1,500mAh, Li-ion  
 No load speed: 0-400/0-1,200min<sup>-1</sup>  
 Impact rate: 0-6,400/0-19,200min<sup>-1</sup>  
 Torque setting: 16+1 positions  
 Max. torque: 22Nm  
 Charging time: 1 hr  
 Max. chuck capacity: 13mm  
 Max. drilling capacity:  
 in steel: 8mm  
 in wood: 25mm  
 Net weight: 8.6kg
